

CENTRAL HEALTH

EMERGENCY ADVICE AND OUT OF HOURS CONSULTATIONS

We have always understood that one of the situations in which doctors can provide the most benefit to their patients is when urgent medical problems occur out of hours. At these times patients are often faced with having to make important, time sensitive decisions where the right choice of hospital or specialist can be crucial. We have managed to provide our out of hours emergency service successfully for over 30 years.

Most other family practices in Hong Kong do not provide out of hours emergency services for their patients.

Unless managed carefully, out of hours advice carries higher medical risks and creates significantly increased potential liability for doctors. In order for us to continue to provide our service safely all patients wishing to access out of hours advice or consults **must be registered with Central Health and have been seen by one of our doctors within the last year.** All our doctors have remote access to your medical records, however it is essential that these are regularly updated to include any change in your symptoms, medications, vaccine status, allergies or medical history.

We have improved the access to our out of hours services by adding a monitored dedicated email service for zoom consults to the usual landlines and mobile numbers for making appointments. **Please store these important numbers and emails carefully and if you are pregnant, have young children or a pre existing health problem please ensure you have discussed a plan for managing an out of clinic hours emergency with your doctor, paediatricians, obstetrician or psychiatrist.**

For General Practice and Paediatrics

Our paediatricians and family doctors have now moved to providing out of hours advice via Zoom consultation when on call. Being able to observe as well as talk to patients, particularly children, significantly improves accuracy in diagnosis and management. It would be wrong not to make this technology our gold standard for remote and out of hours consultations.

GP and paediatric Zoom and in person consultations can be booked **during office hours** in the normal way.
Through reception
Tel: 28240823
enquires@centralhealth.com.hk

Or through our GP nurses
Email: gpconsult@centralhealth.com.hk

and Paediatric nurses
Mobile: 93710878
Email: childconsult@centralhealth.com.hk

Outside normal clinic hours please use the emails below which are monitored by the on call family doctors and paediatrician during the Following times

Monday to Friday: 6pm-10pm
Saturday: 2pm to 8pm
Sunday and Public Holidays: 10am to 4pm
for paediatrics.
childconsult@centralhealth.com.hk
for general practice.
gpconsult@centralhealth.com.hk

For Maternity patients

For pregnant patients booked to deliver with our obstetricians. Please store your obstetricians contact details and the number of the maternity unit where you are booked to deliver carefully.

If you think you may be in labour, experiencing a pregnancy related emergency or if you are unable to reach your obstetrician please call the maternity unit of the hospital where you intend to deliver. They will discuss your symptoms with you, advise you how to proceed, be able to contact your obstetrician or obstetrician on call.

For less urgent problems please email or phone your obstetrician on the contact numbers provided. They will normally respond promptly unless they are delivering a baby or in surgery. You should discuss how to manage an emergency with your clinic midwife and obstetrician. They will take into account your specific risk factors and where you live when making this plan.

For Mental Health

Private psychiatrists in Hong Kong do not currently provide advice or consults out of hours except by special arrangement with their patients.

If you or a family member are experiencing a mental health crisis and believe someone is at risk of harming themselves or others please call 999 or attend the Accident and Emergency department of your nearest hospital.

For routine mental health support, information about our different mental health services and help with making appointments with the most suitable doctor, therapist or counsellor please email our mental health coordinators.

Adults: amhc@centralhealth.com.hk
Children: cdc@centralhealth.com.hk

For repeat appointments or requests to see a specific mental health professional appointments can be made as usual through reception

All our family doctors have training in managing mental health problems and can provide zoom consults out of hours and arrange urgent appointments (within 2 working days) with specialists psychiatrists if needed.

For out of hours mental health consultations
Monday to Friday: 6pm-10pm
Saturday: 2pm to 8pm and
Sunday and Public Holidays: 10am to 4pm
Please email gpconsult@centralhealth.com.hk

Take time to familiarise yourself with how our system works and ensure that you have discussed the best way of accessing emergency advice with your doctor. Please ensure that all relevant family members, including domestic helpers, have access to our out of hours contacts details and understand what to do in an emergency.
